## CLARENDON TOWN BOARD - Meeting Highlights July 2019

Oriden Power representatives Seth Wilmore, Director of Sites and Permits and Michael Berlin, Director of Development introduced themselves to the board and informed they are looking at a solar project proposed on Kevin Wolf's farmland, near the power lines on South Holley Road. This company is sponsored by Mitsubishi who is in the gas business and now looking into renewable energy. Oriden's office is in Pittsburgh, PA and only a four hour drive to Clarendon. Oriden wants to be present for the project from concept into construction and operation. All work by the power company would be done by in-house staff. Concept includes site selection, origination, environmental regulatory permitting, and interconnection process, power purchase agreements, project development, project financing. Power Production includes engineering, procurement, construction and operation and maintenance. A development timeline was presented showing construction for this project to likely be in spring of 2021; plant online in the fall/winter of 2021. It was presented that the site selected would have onsite interconnection, no tree clearing, no stream crossings or wetland impacts, sufficient acreage to minimize project visibility, is in Orleans County Ag District 1 has easy ingress/egress and low housing density. This 20 MW ground mounted solar project is being called Farwell Solar. It was explained that Oriden focuses on smaller community scale projects of 5-20 MW with a single land owner; that this type of project is quicker to completion (single season 5-8 months for construction). It was stated that Oriden would cover any penalties that will be assessed from pulling the property out of the Ag District for the project. Life expectancy of a solar power plant as the one proposed is said to be thirty to thirty-five years. Planning Board Chairman Dave Griggs suggested all board members go and view the solar farm on Whittier Road in Ogden. There is a double row of ten foot trees around the project for screening. Oriden representatives informed that ten feet is minimal for creating shade on the panels and is quite doable. The minimum acreage for such a project is 30-40 acres. There is no fire risk, as is no battery system.

### HIGHWAY/ WATER DEPARTMENT REPORT

Superintendent Larry Swanger reported helping Murray and Barre with paving and Albion with shoulder work. The dirt section of Brown Schoolhouse has been paved with the free grindings from the state. Five other towns helped pave Mansfield and the Brown Schoolhouse Road. The Highway Department closes each year for the week of July 4<sup>th</sup>. During that week, a resident called about water in the yard. Superintendent Swanger went to the site and found a leak in the service line between the road and curb box on South Holley Road, near Route 31A. Water meter readings will be done next week.

### PLANNING BOARD REPORT

Chairman Dave Griggs submitted the following written report: **06-25-2019 (Regular meeting)** - Meeting cancelled due to insufficient agenda items.

**07-09-2019 (Regular Meeting) - SD 19-06**, Paul Nicosia, pre-conference for subdivision for merger of vacant land (1.239 acres) tax id# 97.00-1-19.2 and site plan review for a 30' x 48' pole barn. No issues were noted with the proposal. Applicant requested to move to a formal application. Motion was made, seconded and approved to move to a formal application. A motion was made, seconded and approved to declare this a minor subdivision for SEQRA purposes. A motion was made, seconded, and approved to approve the subdivision contingent upon merger with properties of Craig Nicosia and to approve site plan for the pole barn. **SD 19-07**, John DeFilipps, pre-conference for subdivision for merger (11.125 acres) tax id# 99.00-1-47.1 of property owned by Bruce Wohlers. One minor issue noted (missing survey pin). Applicant requested to move to a formal application. Motion was made, seconded and approved to move to a formal application. A motion was made, seconded and approved to declare this a minor subdivision for SEQRA purposes. A motion was made, seconded, and approved to approve the subdivision contingent upon merger with properties of John DeFilipps tax id# 99.00-1-47.2 and verification by the OIO that the missing pin issue is corrected. **SP 19-05**, Gary Germeo, formal application for a Special Use permit for storage facility, Hall Road, tax id# 99.-2-37.4. Chairman Griggs reviewed the letter from the Orleans County Planning Board indicating that the TOC could proceed with final action on this application. A motion was made, seconded and approved to grant approval SP 19-05 contingent upon conditions set on the Special Use Permit. The next regularly scheduled Planning Board meeting is 7:00 PM, July 23, 2019 at the Town Hall, 16385 Church Street.

New York State Assembly has sent notice of 2019/2020 CHIPS Aid designated for Clarendon in the amount of \$150,377.78.

**NEW BUSINESS**

The Board scheduled a workshop meeting to discuss Solar Farms for inclusion in the Zoning Ordinance; to be held August 6, 2019 at the Town Hall, immediately following the workshop meeting scheduled at 6 PM regarding the Employee Handbook. Supervisor reviewed that the Tentative Budget for 2020 needs to be presented to the Town Clerk by 9/30/2019. A workshop for the 2020 town budget was scheduled for September 18, 2019 at the Town Hall; to begin at 6:00 PM. Discussion was held regarding the National Grid Energy Savings Plan quotes to change the Town Hall and Highway Garage to LED lighting. Cost for Town Hall change would be \$1,993.40 and it would take eight years to save \$260.90. Cost for the Highway Garage would be \$3843.81 and it would take 3.4 years to save \$1,491.25. All in agreement that it would not be worth it to have the Town Hall changed over to LED lighting; change-over at the highway garage was approved.

The 2019 every-other week Recycling Schedule for Clarendon is available on the town website at [town-ofclarendon.org](http://town-ofclarendon.org). Under departments, go to the Town Clerk page. Items accepted have been changed, so please take a look at the list of acceptable recyclables.

The Town Historian visited Stoney Meadows and Stone Mountain Looms owned by Theresa & Charles Jewell. The farm is located at 16038 Glidden Road in Clarendon, just south of Holley, NY and is home to a collection of both Huacaya and Suri Alpaca. Their focus is on fiber use education. They pride themselves with providing high-quality continuous strand weaving looms and the education to use them. They love teaching new and old weavers how to use their looms to create beautiful handmade products.

## TID BITS

Geary (Moose) Shenck

Greetings and glad tidings to all who have the stamina to read on. *If biologists are right in their assertion that there is not a perfect man today on the face of the earth, a lot of personal opinions here and there will have to be altered.* An honest confession is good for the soul but bad for the reputation. *Law gives the pedestrian the right of way but makes no provision for flowers.* Doctor: Don't worry Dave, this is a simple operation. Patient: But Doc, my name's not Dave. Doctor: I know. It's mine. *Tom: Your wife told me you never buy her flowers. Rod: I didn't even know she sold them.* Some things to think about: Always keep your words soft and sweet just in case you have to eat them. Since it's the early worm who gets eaten by the bird, sleep late. Some mistakes are too much fun to make only once. Drive carefully. It's not only cars that can be recalled by their maker. *We can learn a lot from crayons. Some are sharp. Some are pretty and some are dull. Some have weird names and all are different colors but they all have to live in the same box.* Save the Earth – it's the only planet with chocolate (I think). *I miss very few things about being young, but the ability to sneeze without injuring myself is a big one.* Are those who sneeze a lot the most blessed? *Is a paper cut the trees' way of getting back at you?* I wonder what dirty looks like in sign language.

### THIS MONTH'S RIDDLES:

1. Where are average products made?
2. Why do gymnasts go to taverns across the street from each other?
3. If joy is the opposite of sorrow, what is the opposite of woe?
4. Why are goal tenders thrifty?
5. What did the father snowman say to his son when he got in the car?

*Lecture: The art of transferring information from the notes of the lecturer to the notes of the students without passing through the mind of either. Dictionary: A place where success comes before work. Classic: A book which people praise but do not read. My brain said "crunches" but my stomach auto-corrected to "cupcakes". Wife: I have a bag full of used clothing I'd like to donate. Greg: Why not just throw it in the trash? That's a lot easier. Wife: But there are poor starving people who can really use all these clothes. Greg: Honey, anyone who fits into your clothes is not starving. (Greg is now recovering from a head injury). An intellectual is a man who takes more words than is necessary to tell more than he knows.*

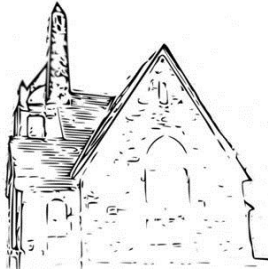

*A friend told me a woman drove him to drink and he didn't have the courtesy to thank her.* Some nevers: Never insult seven men if you're only carrying a six shooter. Never judge a man by the opinion his wife has of him. Never hit a man with glasses – hit him with something much bigger and heavier. *A pint of example is worth a barrel of advice.* When a jolly young fisher named Fisher went fishing for fish in a fissure, a fish with a grin pulled the fisherman in and now they're fishing the fissure for Fisher. *One night a lady stumbled into the police station. She had a black eye and claimed she heard a noise in her backyard and went to investigate. The next thing she knew she was hit in the eye and knocked cold. An officer was sent to her house to investigate and he returned an hour later with a black eye. "Did you get hit by the same person?" "No, he replied, "I stepped on the same rake".* In the business world an executive knows something about everything, a technician knows everything about something and the switchboard operator knows everything. *Not only is the horse just about extinct, but so are the people who work like one.* Pat a man on the back and you may make his head swell. *The optimist may be wrong but he has a lot more fun than the pessimist.* If you think about it, you'll realize that an old fashioned hour glass has more moving parts than the most expensive luxury watch on the market today. *The government takes surveys constantly to find out what people do with their money besides paying for government surveys.*

### My Friend by Bill Carr

I have a friend I've never seen  
but just as sure as night  
My friend keeps close watch o'er me,  
makes sure things are all right.  
His helping hand is always there  
whenever I may fall  
And though I backslide now and then  
He loves me through it all.  
In sorrow I can turn to him,  
in secret shed my tears  
He soothes my every heartache  
and drives away my fears  
My friend's name is Jesus Christ,  
I love him yes indeed.  
He never fails to comfort me  
whenever I'm in need.

Adios and God Bless. Geary 'Moose' Shenck

## Hillside Cemetery

For the people who are interested in genealogy sometimes information you uncover is slightly incorrect. Take this headstone in Hillside cemetery for instance.

**Mary T. Crannell** was born April 4, 1846 and she died June 10, 1847. She was initially buried elsewhere and as you can see by the burial transit permit her remains were brought to Hillside Cemetery and buried on August 16, 1912. The problem is that the transit permit has her name spelled Mary Thressa Crandal .

The website findagrave.com shows the name spelling as Mary Therese Crannell .

Same individual, different spellings of the name. The person who made out the burial transit permit probably never gave a second thought to the spelling of the name. Many times you can see on any documents in history that are handwritten, names were spelled one way or the other based on what the person heard who was recording it. (census takers for instance) This is a good tip for anyone doing family research, check different spellings of any name you are looking for because there is a strong chance it could be right there but spelled wrong and you could be missing out on an important piece of your research.

## **The Clarendon Lions Club**

We have been busy scheduling our 2019 fund raising and distribution program at our bi-weekly meetings. In March, our guest speakers were Earl and Catherine Schmidt. Earl is the Orleans County Veterans Director. He informed us of all the State and Federal benefits allowed to Veterans and their dependents. Earl's wife, Catherine, runs the PFC Joseph Dwyer Veteran's Peer to Peer Program, which is a support program for veteran's, spouses, partners, and care-givers, offering them a venue to meet and network, for friendships, and enjoy social events. She described the numerous events taking place for Veterans in 2019. All are welcomed to our meetings, during the winter and spring months (April thru May), held in the basement of the Clarendon Methodist Church, on the second and fourth Wednesday of the month, starting at 6:30 PM for a Pot Luck Supper, 7:00 PM for a speaker from a local organization, followed by our business meeting. Our future speaker's are the leaders of the Clarendon Boy Scouts and Holley Cub Scouts. Come and join us. Our "Little Free Pantry" located at the east end of the Town of Clarendon Office parking lot, on Church Street, is for those in need of short term food help. The Pantry, is in desperate need for your help, to replenish the pantry with non-perishable foods, such as boxed items (cereal, crackers, pasta, etc.), diapers, laundry soap and other non-perishable items. If you would like to join our organization, please contact Lion, Tom Persia at 638-5750. *Thank you for your support,*

## Protect Your Family from Tick Bites this Summer!

With the warm weather here and more opportunities to spend time outdoors, it's important to remember these tips to prevent ticks from affecting your summer. Be sure to protect yourself, pets and your property from these pests.

- Wear light-colored clothing with a tight weave to spot ticks easily.
- Wear enclosed shoes. If wearing long pants and sleeves tuck your pant legs into socks or boots, and shirt into pants.
- Check clothes and any exposed skin frequently for ticks when you are outdoors.
- Avoid dense woods and bushy areas, as ticks climb upwards to find hosts.
- After going indoors at the end of the day, do a full-body tick check and try to bathe or shower within two hours of returning to more easily spot ticks that may be on you. Be sure to check your pets as well!
- In your yard, reduce shady and damp areas and clear any leaf litter or seeds from the ground.
- Replace plants that deer love to browse with deer-resistant plants. Consider installing a deer fence to help reduce deer from dispersing ticks.

An extremely effective way to kill ticks on exposed clothing is to tumble the clothing in a dryer set on high heat for at least 10 minutes.

## Just For Laughs .....

Sister Mary Ann, who worked for a home health agency, was out making her rounds visiting homebound patients, when she ran out of gas. As luck would have it, an Exxon Gasoline station was just down the block. She walked to the station to borrow a gas can and buy some gas. The attendant told her that the only gas can he owned had just been loaned out, but she could wait until it was returned. Since Sister Mary Ann was on the way to see a patient, she decided not to wait and walked back to her car. She searched for something in her car that she could fill with gas and spotted a bedpan she was taking to the patient. Always resourceful, Sister Mary Ann carried the bedpan to the station, filled it with gasoline, and carefully carried the full bedpan back to her car. As she was pouring it into her tank, two men watched from across the street. One of them turned to the other and said "If it starts, I'm turning Catholic."
